who we are

eDiscovery Solutions Group is an international consortium of leading independent eDiscovery consultants, eDiscovery consulting firms, regional litigation service providers and best-in-class eDiscovery technology companies that have come together to provide all of the services, consulting and technology necessary to support the entire eDiscovery lifecycle for corporate legal departments, corporate IT departments and law firms.

what we do

eDiscovery Solutions Group is a trusted advisor to assist you with understanding how to navigate the entire eDiscovery lifecycle, apply best practices, choose the right services and technology and reduce overall costs. Whether you want to outsource all your eDiscovery, develop an in-house solution or enhance just one aspect of the lifecycle, we are ready to help.

why choose us

In today's complex new world of managing ever increasing volumes of Electronically Stored Information (ESI) and eDiscovery demands, eDiscovery Solutions Group is an independent trusted advisor that can help you navigate the entire eDiscovery lifecycle, make the right decisions to meet your specific requirements, ensure the right balance of cost and quality and increase your success.
